Renee,

Let's look at a date and time next week. Tad Alford, the attorney who authored our CCR application to EPA, will be taking the lead on our responses, and will be available next week.

Tuesday morning, Wed. after 2:00 and Friday after 9:30 look like good times for us.

Thanks,

Patrick

Hi Patrick and Karen,

Bruce and I were interested in talking to you about a comment we received on public participation in civil enforcement. I know you're working on comments back to us on the other issues but if you have some time that would be appreciated. Thanks.

Renee

I was wondering whether you guys might have some time next week to talk about Earthjustice's comment on public participation in civil enforcement? Let me know a time and day that will work for you.
